LETTER OF REFERENCE

Colt Security Systems

Dear Sirs,

I refer to the above mentioned organisation and can state without any reservation that my dealings with this organisation have been excellent.

Colt Security have been repairing and maintaining our company alarm and security system for a number of years now and throughout this period I have found their knowledge and performance to be of a high standard and extremely efficient.

My company is based in Kya Sands and having a reliable security system is crucial for peace of mind. Everyone at Colt Security are very understanding of the problems that we face in Kya Sands and whenever we have had problems with alarm failures or vandalism, Colt Security have always reacted very quickly to repair the problem and to make sure our offices are not left unprotected over night.

Because of the excellent service I have received at my office premises, I have also used Colt Security for the supply and installation of my alarm and security systems at my private home.

Based on my experience dealing with Colt Security, I would defiantly recommend them to other people.

Yours Sincerely,

CLIFF ROBERTSON
