TO WHOM IT MAY CONCERN

Colt Security Systems have been responsible for providing 24 hour security services to the Ashleigh Home Owners Association for the past 5 years as well as adhoc security related matters such as repairing the electric fence, maintaining the electric gate motors and monitoring the guard communication system at the Association's premises. During this time we have never had any cause for concern about their reliability, integrity and timekeeping and we have been very satisfied throughout their tenure with their quality of service. An ongoing high standard of supervision of their guards is maintained at all times.

Prior to making use of Colt Security Services, the Association made use of another security service during which time we experienced two break-ins over the electric fence to the complex. After a thorough investigation we determined that the guards from the previous firm were involved in both incidents.

The Ashleigh Home Owners Association have always found interaction with their Managing Director – Mr Glen Cartwright and their personnel very cooperative and can happily recommend them as a trustworthy, reliable and professional security organization.
